## IMPORTANT SAFETY NOTICE:

The Guardian Angel® has Neodymium Magnet built into the product for mounting purposes. Never allow neodymium magnets near a person with a pacemaker or similar medical aid. The strong magnetic fields of the magnet can affect the operation of such devices. Neodymium magnets are extremely strong, and must be handled with care to avoid personal injury. Fingers and other body parts can get severely pinched between two attracting magnets. Neodymium magnets can also damage magnetic media such as floppy disks, credit cards, magnetic ID. cards, cassette tapes, video tapes or other such devices. They can also damage televisions, VCRs, computer monitors and other CRT displays. Never place neodymium magnets near electronic appliances. Children should not be allowed to handle neodymium magnets as they can be dangerous. Small magnets pose a choking hazard and should never be swallowed or inserted into any part of the body. Seek immediate medical attention if magnets are swallowed or inhaled. This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
